DANVILLE TRACTION AND POWER CO. WILL SEEK ONE MAN CARS IN THIS CITY

The Danville Traction and Power Company contemplates at no distant date to ask permission of the city council to acquire the franchise so as to permit the operation of one-man cars in this city. This was revealed yesterday at the annual meeting of the directors and stockholders of the corporation at its offices on Main street.

C. G. Holland, president of the corporation since the death of John F. Rison, prepared a written report on the activities of the company during the past year and in it revealed some of the difficulties besetting the local concern, as those in other cities, with the increasing popularity of the automobile which has dealt traction companies a severe blow everywhere.

The local company's income during 1923 was more than \$18,000 less than it was during 1922 but, the report showed an increase in net profits of \$1,439.98 for the year 1923 over 1922 showing to some extent the results of sharp economies which have had to be practiced to spare the company from operating at a loss. Patrons figures show that over three and a half million persons were carried on Danville street cars during 1923 or nearly half a million less than the year before. The curtailment in passengers, reflects more or less directly on the use of the automobile but the rather natural tendency of the home-going business man in the evening to pick up a friend waiting on the corner for the street car and thus "killing" a six cent fare. The same, of course is true at other times of day.

Reasons advanced for the one man car are that it is less costly to operate. There is the elimination of the salary of one of the two men who now find place on every street car. The question was raised once before but the Young Men's Business Club offered objection to the one man car in Danville and the innovation failed to develop.

The report presented to the stockholders yesterday contains expressions of appreciation to the personnel of the company and reference is also made to the well kept schedules and the high standard of service. Since the last report was made additional double truck cars have been purchased and placed in operation eliminating single truck cars from the regular schedule and city power has been availed of for motive power, the street car service being materially speeded up.

The text of Mr. Holland's report is as follows:

"The past year was not an active business year as we have in recent years come to judge of active business conditions. Four companies in the retail business have been selling their wares at retail, and last year was not considered a first rate year on the local retailers. It may be, however, that we have not reached 'normalcy' and that retailers should adjust themselves and their business to last year's volume of business.

"That has been the problem of your management and will continue to be for some time to come—to adjust our expense account to our income or volume of business. That we have made some progress is shown by the fact that although our income was \$13,369.23 less than in 1922, our books show an increase of \$1,439.98 in our

Underworld Nights

NO. 2—GANGSTER'S FEAR

"I WAS FORCED TO TAKE A PLEA."

The names their mothers gave them are soon forgotten in the underworld, even as are the mothers themselves. Each man is known by the moniker that best describes his special type of operation and there is little the Gyp, Stick-up, Red, the Slinger, Scratchy Sam, Harry the Dip, and others.

Their real names don't matter, and the names in these stories are pseudonyms. For some day these men may go straight.

The leader of the most powerful New York mob will call the Slinger. He inherited the name from his brother, who was the greatest slasher in the business before him. But when the opposition gang got the brother, the younger member of the family carried on for him.

The present Slinger is a little over 30. He has done eight bits—ranging from a reformatory sentence for a stick-up when he was 14 to a seven-year stretch for murder.

He is one of the best dead-liners in the game. And he's a power with his fists. He has run the whole gamut of crime.

"It doesn't pay," he told me confidentially. "It doesn't pay. I make an easy dollar now and then—

but it goes even easier than it comes. And then I have to be on the jump all the time. I have to be on the look-out for The Law and the opposition mob. I can never tell when I'll be bumped off."

"Not that I'm scared. I fear no one. But I'd hate to be framed. Yet that's just what happened—when they charged me with the murder of my best friend."

He said that he examined the lock on Rodgett's store and found that there were more fingerprints than were necessary; therefore, he had deduced that a one-eyed man had been the burglar. There happened to be a one-eyed man named Richardson in the neighborhood, and this misfortune proved doubly onerous when he was arrested and charged with the crime.

However, fortune again smiled on the negro when Judge Clement did not believe the testimony of the one-eyed man. He was promptly directed a verdict of not guilty.

In cross-examination Holt defense attorney asked the witness if he had been in the fact that the door had been picked open by a negro had been missing jaw tooth.

This witness on the part of the defense counsel was promptly squelched by the court.

MAN AND LIGHTNING EQUALLY TO BLAME FOR FOREST FIRES

SAN FRANCISCO, Jan. 28.—Man and lightning share equal responsibility in the fact that forest fires in California were more destructive during the past year than in any other state, according to a report issued by the United States forest service here.

More fires were started in national forests during the year 1923 than since 1917. In a total of 1,357 fires nearly 80 per cent were attributed to lightning, the rest to human carelessness. And of the man-caused fires, tobacco smokers started 350, or 50 per cent, and campers 117, or 16 per cent. Railroads, brush-burners, lumbering and incendiary fires accounted for the rest.

Eighty-six per cent of all the California fires in national forests were extinguished by forest rangers and their co-operators before more than 10 acres had been covered by flames. Forest officers obtained convictions against 120 violators of state and federal fire laws.

The man-made cigarette and the unextinguished match continue to be the greatest enemies of our forests, said District Forester Paul G. Redington. "It is surprising also to note the number of fires started by careless campers."

The forest service would regret exceedingly to have to range over restricting the public use of our national forests, which cover the greater part of the mountain regions of the state and constitute a most popular playground. But if such action is taken, the public will have only itself to blame. One thing is certain, however, to range the number of man-caused fires, and if educational methods fail to produce the desired results, the government is prepared to take more stringent measures.

Settlement of British rail strike hopes for within 48 hours. Conference this morning.

STUDENT CONFESS TO ROBBERY

(By the Associated Press) BUTTE, Mont., Jan. 28.—Robert Arthur, 21, of Butte, R. A. Heller, 21, of Butte, and Bernard Guesenell, 21, of Butte, students of the University of Montana, confessed to a robbery of the Montana State Bank at Butte, Jan. 27, 1923.

The three students confessed, according to post office officials, and declared they had concealed the money under a bridge over the Missouri River. The money was later recovered.

Good Government Club Has Adopted Its Constitution

The first meeting of the Good Government Club held its organization meeting last night at 7:30 o'clock in the Masonic Temple auditorium by the president, S. J. Owens. About 48 persons, including one woman, attended the meeting.

The primary purpose of the meeting was to take action on the constitution. This was read by the secretary, S. C. Cunningham, and adopted by acclamation.

Quite a debate developed over the question of a separate election district for Danville. The matter was first injected into the proceedings by President Owens who named a committee, composed of Judge Walton Brown, H. M. Martin and A. D. Keen, to plan a course of action and to make a report. This committee went out, drew up a resolution, which endorsed a separate district to provide for the representation in the House of Delegates and presented the resolution to the meeting. It was adopted by acclamation.

Judge Brown, in urging adoption said that the present situation, which was amazing, had continued for 23 years. The Danville had been represented during most of this period only through the agreement of the Democratic chairman of the city and county, and that at the last election the city was left out entirely and had no representative, a citizen of the city, in the House. He asserted that the city clearly had a right to such representation and that it was a matter of prime importance in certain instances when some measure of local importance was presented to the General Assembly for action.

William B. Smith replied to Judge Brown's argument by saying that the Good Government Club would weaken its case for the passage of the charter change bill by advocating at the same time the change in districts giving Danville a representative. His contention was that the club should concentrate on the passage of the charter change provisions. He was supported in this by W. R. Harrison.

However, the action of the club was to the effect that a measure advocating the making of Danville into a separate district be presented in the General Assembly, and that "I was picked up with others and was forced to take a plea."

Col. A. B. Carrington addressed the club, urging that the club vigorously push the charter change measure. He said that the opposition was organized; that the matter would come up before the committee on county, city and town organization on February 7 and that it was very important that the committee from the club appear before the House committee to argue for the passage of the bill. The speaker, by way of digressing, said that the opposition had made fun of the organization meeting and would, no doubt, make fun of the meeting held last night. It was on Col. Carrington's motion that President Owens was authorized to name a committee, in recess, to appear before the House committee to urge the passage of the bill.

The question of electing 12 women as members of the executive committee of the Good Government Club was broached. It was finally decided that these 12 women should be selected by the executive committee from the various wards of the city.

Dr. I. C. Harrison told the club that he appreciated its efforts toward raising the tax rate of the city, so that money might be raised for the betterment of the school system. W. B. Smith also touched upon the school question, stating that it was the most important problem confronting the people of this city.

Following the meeting of the members of the club there was a meeting of the executive committee.

CHARTER BILL REPORTED

RICHMOND, Va., Jan. 28.—The Danville charter bill today was reported by the Senate Committee on special and public legislation. The request that it be referred to the committee on county, city and town organization. The request was granted by the president.

MARINE IS KILLED IN FIGHT OVER GUN

(By the Associated Press) FREDERICKSBURG, Va., Jan. 28.—T. M. Howard, a Marine corps private of Quantico, was shot and mortally wounded here today in a struggle over a shotgun with John Stevens at the latter's home. Stevens was released on \$2,500 bond. Two Marines, companions of Howard, were held in jail.

According to witnesses, Howard attacked Stevens and Stevens' wife. Stevens entered his home, witnesses declared, returned with his gun and warned the Marines to leave; they, however, attempted to wrest the gun from him. In the struggle the gun was discharged. Howard was shot in the stomach and died two hours later.

THIS BRIGHT BABY GIRL

Brought Joy to Home. Mrs. Price's Health Restored by Lydia E. Pinkham's Vegetable Compound

Scottdale, Pa.—"I never felt like working, and when I would try to do any work standing on my feet, I would just drag around all day long. At times I would have terrible pains and would be in bed three or four days. I was in this condition about a year when I saw Lydia E. Pinkham's Vegetable Compound advertised in the papers. I had heard different women say it was good for women's troubles, and my aunt thought it would help me as it had helped her. So I took the Vegetable Compound and it brought things right, and I was in good shape from then on. I'm a mother now, and I believe it helps at birth, too, as with both my other babies I suffered a great deal more than with this one. I thank you a thousand times for the good your medicine has done me. It has surely made our home a happy one."—Mrs. ROBERT PRICE, Scottdale, via Lockhaven, Pa.

In a recent country-wide canvass of purchasers of Lydia E. Pinkham's Vegetable Compound, 98 out of every 100 report they were benefited by its use.

Directors Named By Danville "Y" On Monday Night

Three meetings held yesterday by the Y. W. C. A. at their rooms in the Miller building was a very interesting and important one.

The meeting was opened by united worship. Mrs. Rucker, president, presided in the absence of the president, Mrs. Archibald D. King. The program was continued with a very entertaining violin solo by Mrs. Richard Penn, accompanied by Miss Elizabeth Penn. Dr. T. A. Sinc, of Main Street Methodist church, made a most interesting talk using as his theme "Y. W. C. A. as a Community Asset."

Dr. Sinc's talk was followed by the reports of the reports were preceded by an introductory talk by Mrs. Hinchliffe, general secretary, in which she remarked on the occasion being the third anniversary of the local Y. W. C. A. and gave a brief sketch of the organization's work, purpose and ambitions. The past year's work was reviewed in detail, giving the accomplishments and the work now underway, and a program of the coming year's work. The talk was closed with a very appropriate little poem.

The first report heard was that of the Industrial Secretary in which it was stated that the two clubs in this department, the Industrial Girls' Club and the Business Girls' Club, had made wonderful progress. It was also brought out that the association was very proud of the fact that the two Danville girls were selected to go to Bryn Mawr School for Industrial Workers. The expenses of one of these girls was borne by the Industrial Committee and the expense of the other by the Business Girls' Club.

The fall program was opened with a Radio Banquet which was a great success. During the fall, in addition to other work, the girls were held for two weeks and Bible services were held during "Fellowship Week." At Christmas time the department gave a party for 50 children who otherwise would not have had a Christmas celebration. It was announced that in April there will be a musical comedy given by the department.

The other report heard was rendered by the secretary of the Girl Work department, Mrs. H. B. Egan, Anderson, who was half time at the lunch conference. In March a girl's work committee was organized and did splendid work. The committee held a cake sale in April and the proceeds were applied to the expense of sending five girls to the Sweet Briar conference. During Halloween three parties were given by the reserve with very interesting programs. The department was delighted to be able to say that it had fulfilled all the responsibilities resting upon it. The Danville Reserves met all these responsibilities without knowing the program and fulfilled them in a very gratifying manner.

After the reports had been heard new directors were chosen as follows: Mrs. S. Y. Taylor, Mrs. L. A. Crumpler, Mrs. Rucker Penn, Mrs. A. C. Gilles, Mrs. Fred W. Townes, Mrs. S. C. Cunningham, Mrs. W. B. Beach, Mrs. G. W. Egan, and Misses Saline Haskins and Maud Woodward.

A very interesting feature of the program was a review in pageant form and by impersonating the styles of the periods of the Y. W. C. A. for the past 25 years, seen in England where it was first formed. The feature was very entertaining and instructive.

Federal reserve Reviews shows production of basic commodities, and wholesale prices recorded slightly in December. Production of pig iron and anthracite increased.

Child-birth

WHEN the Little One arrives, you can have that moment more free from suffering than you have perhaps imagined. An eminent physician, expert in this science, has prepared a book, "Mother's Friend," by Mrs. C. J. Hartman, Scranton, Pa., says:

"With my first two children I had a doctor and a nurse and then I had to use instruments, but with my last two children I used 'Mother's Friend' and had only a nurse. I had no time to get a doctor because I wasn't very sick—only about ten or fifteen minutes. Use 'Mother's Friend' as our mothers and grandmothers did. Don't wait until today, and meanwhile write to Bradford Regulator Co., B-70, Atlanta, Ga., for a free illustrated book containing information every expectant mother should have. 'Mother's Friend' is sold by all drug stores—everywhere."

A neglected cough—The beginning of many a dangerous disease

WHEN your strength is exhausted and the delicate tissues of your throat and lungs are raw and sore from coughing, you may fall an easy prey to disease—bronchitis, pneumonia, even tuberculosis. That is why it is so important to break up coughs promptly.

For more than fifty years thousands of families have relied upon Dr. King's New Discovery to stop coughs. It does this quickly and naturally without any bad after-effects whatsoever, by stimulating the mucous membranes to throw off the clogging secretions. It has an agreeable taste. All druggists.

Series 3-No19

LINCOLN CHUCKLES OVER CRIME, PROUD OF CUNNING

By MARGARET DALE.
(Copyright, 1924, by The Bee.)
CINCINNATI, Jan. 28.—Warren J. Lincoln, Aurora lawyer and relative of the martyred president, sits in his Aurora jail today, haggard, worn, his status as a murdered established before the world, and yet he is at peace. He is not only at peace, but he is satisfied with the masterful way in which he played his crime and which he finally played it to a perplexed world.

The legal mind, which had concocted fourteen amazing confessions, of which only one was true, and which he had given with such a cunning and crafty way, he is now at peace. He is not only at peace, but he is satisfied with the masterful way in which he played his crime and which he finally played it to a perplexed world.

For months the man who was called a "nut" by his Aurora neighbors because of his absorption in criminal cases, who had given police and the public a series of confessions, he had given them the clue and like a child at a game, had watched them grow hot and cold on the search.

He had read the newspapers daily, and frequently had expressed his impatience at the stupidity displayed by those searching for the evidence that would destroy him and finally like a child that can no longer wait to demonstrate its cleverness, he himself led his captors to the Aurora city dump and pointed out the cement block in which the skulls were hidden. It was not third degree that brought him to the point where he told the truth. It was impatience for the world to appreciate his superior cunning.

And the man who fulfilled his boast that he would raise the prize sweet peas of Kane county, fulfilled, too, the boast indicated by his attitude during the months of incarceration.

"I'll make the front pages again, you wait and see," he had been his claim to the newspapermen and jail officials. There was a chuckle concealed in this—a chuckle over the game he was playing with the rest of the world. A dangerous game, but the legal mind seen in the way he withheld a trump card, even while he gloats childishly over his dramatic and artistic triumphs.

The physical similarity of the man to Carl Wandering, the ex-soldier who was hanged after he had murdered his wife and the "ragged stranger" he had hired to assist in his plot, is marked. The same pale blue eyes, the same bulging forehead. Both are dementia praecox types, psychologists say. Both killed their wives and both told coherent and untrue stories to the police and public.

Wandering was hanged. Will the legal mind of Warren J. Lincoln save him?

History Links Early Kansas With Albania

KANSAS CITY, Jan. 29.—Lightning never strikes in the same spot twice, but history often repeats itself, so they say.

Echoes of history came back recently to the ears of historians in the Southwest linking this part of the country with a spot in Europe not prominent in the events of the continent across the sea.

Recent reports that Harry F. Sinclair, millionaire oil man of the Southwest, was offered the throne of the principality of Albania, to succeed Prince William of Wied, recall an event in history which linked these two parts of the world ninety years ago.

Kansas City and the Southwest have very much "diamonds in the rough"—in fact, the hand of civilized man had not been set to work on the spot where this city now stands. Prince of Wied attracted the attention of other parts of America and the world on the side where was built Kansas City and the surrounding country.

Accompanied by a young French artist named Kerd Becher, Prince Alexander Philip Maximilian, Prince of Wied, explored this section of the country and gave to the world the first graphic pen-and-ink sketches of this part of the continent. It was in the year 1833 that this German prince, with his French companion and artist, passed by this site en route to the Indian country of the Upper Missouri River. When a young Prince Alexander was a soldier in the German army, he fought against Napoleon and was present at many battles, including Jena. He was a prisoner of war for a time. He longed for adventure and sought the Indian country of this country for his explorations.

At the head of an expedition and accompanied by about 100 people, the prince and the artist left St. Louis, Mo., in 1833, aboard the box Yellow Star.

The river at that time was unfit for navigation, and the account of this trip tells of encountering many hardships on the journey. Through this section of the country, which was inhabited at only a few spots by different tribes of Indians. After much hardship the expedition reached the mouth of the Missouri River on April 21, having taken 12 days on the trip from St. Louis. An excerpt from the prince's account of the trip says:

"On April 21, we reached the mouth of the Missouri River, called 'where the Cans' by the French. From 500 to 600 people from the mouth of the Kansas to the banks of the Missouri, we assisted in high walls in the forest. Near it lived remnants of several Indian tribes, who were driven or displaced from the States to the west of the Mississippi and then to the west of the Missouri in these parts. Among them were the Delaware, Shawnee, Miami and others. The Kansas River later was changed in name to the Kaw and Kansas City is now at the mouth of this river."

Later they witnessed a scalp dance at Okemah and then they went on horseback in buffalo and bear hunts and engaged in various other pursuits.

They proceeded to within sight of the Rocky Mountains, but owing to warnings of oncoming hostile Indians they did not go beyond. Numerous sketches were made by the artist, Becher, which are found in the books written by Prince Alexander.

Before making their trip the two explorers had visited the Indian chief Place Hawk, who was the mercenary at St. Louis, the invitation of William Clark, the Indian agent. They were advised not to attempt to penetrate the wilderness alone, and for that reason were induced to arrange for the expedition aboard the Yellow Star.

They proceeded to within sight of the Rocky Mountains, but owing to warnings of oncoming hostile Indians they did not go beyond. Numerous sketches were made by the artist, Becher, which are found in the books written by Prince Alexander.

SOCIAL WHIRL CAUSED GIRL TO END LIFE

Harding Blames Late Hours and Smoking For Death of His Daughter.

(Associated Press Leased Wire)

BOSTON, Jan. 29.—The whirl of social life, dancing and cigarettes resulting finally in a nervous breakdown, are blamed by W. F. G. Harding, governor of the Federal Reserve Bank of Boston, for the death of his daughter, Margaret Elliot Harding, who committed suicide Saturday.

Miss Harding was born in Birmingham, 23 years ago and was prominent in Washington social circle when her father was governor of the Federal Reserve System.

Governor Harding, in a statement last night, made public the circumstances of Miss Harding's death, which had been withheld since Saturday when a medical examiner reported: "Cause of death, hemorrhage. It was in the year 1923 that this German prince, with his French companion and artist, passed by this site en route to the Indian country of the Upper Missouri River. When a young Prince Alexander was a soldier in the German army, he fought against Napoleon and was present at many battles, including Jena. He was a prisoner of war for a time. Before making their trip the two explorers had visited the Indian chief Place Hawk, who was the mercenary at St. Louis, the invitation of William Clark, the Indian agent. They were advised not to attempt to penetrate the wilderness alone, and for that reason were induced to arrange for the expedition aboard the Yellow Star.

They proceeded to within sight of the Rocky Mountains, but owing to warnings of oncoming hostile Indians they did not go beyond. Numerous sketches were made by the artist, Becher, which are found in the books written by Prince Alexander.

THIRD PARTY MAY DECIDE PRESIDENCY

By HARRY B. HUNT.
WASHINGTON, Jan. 29.—A deadlock in the 1924 presidential election, with the "balance of power" held by progressive third-party electors from the northwestern agricultural states, is the possibility being studied by advocates of a third-party movement, as the probable lineup of old-party candidates and policies take shape.

Here is, in brief, the situation as it is viewed by third-party advocates: Henry Ford's third-party movement is a possible independent candidate and his endorsement individual around which independent political sentiment had begun to crystallize.

Ford's withdrawal in no way changed the dissatisfaction with existing political parties which is at the root of the third-party movement.

This dissatisfaction already has expressed itself by the ousting of both old-party senator in Minnesota and the election of Farmer-Labor senators, by the seating of Non-partisan league senators from North Dakota and Washington, Montana, Iowa and Nebraska in the elections of Senators Dill, Wheeler, Brookhart and Howell.

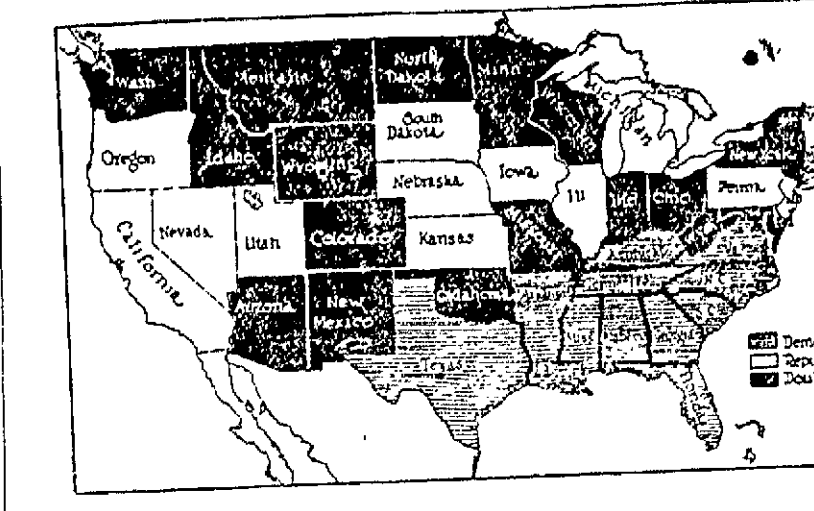

Delay Gives More Impetus.

It is spreading, not subsiding, according to political advisers here.

With little prospect for legislative accomplishment at this session which can allay this discontent with conservative candidates and platforms seemingly assured for both old-line parties, the demand for a third party—even if only a party with no chance for the presidency—is increasing.

The situation in the present Congress is lending much heart to third-party backers. It gives visible proof that a third party need not necessarily be a majority party to exercise a guiding hand in legislation. If a new party can achieve a balance of power similar to that now held by the progressive groups in both House and Senate, much greater headway can be made than under a strict two-party organization of Congress.

The Farmer-Labor party and the Non-partisan League offer centers

THIS MAP SHOWS HOW THE THIRD PARTY PROPOSERS HOPE TO BECOME A FACTOR IN THE NEXT CAMPAIGN, THROUGH WIELDING A BALANCE OF POWER THAT MAY THROW THE PRESIDENTIAL SELECTION UP TO CINGERS.

from which such party organization may spread. Each is representative of the third-party craving. It is believed a following can be drawn sufficient to make the new party a real factor in the campaign.

Without conspicuous leadership, third-party sentiment has united more than half the voters. In Minnesota and North Dakota, has attained second place in Idaho and Washington, a close third place in South Dakota, Montana, Nebraska and Oklahoma, and substantial followings in Colorado, Texas, Kansas and Iowa.

In addition to these, should Senator La Follette consent to becoming the standard-bearer of the new party, Wisconsin might be carried over into the third-party camp bodily.

Here's How It's Favored.

The present lineup of states indicates the Democrats are sure of 12 states with an electoral vote of 139. The Republicans are equally sure of 18 states with 193 electoral votes.

Eighteen states are in the doubtful list, controlling 193 votes. It is in these that dissatisfaction and unrest

are most rampant and the soil favorable for third-party seed.

In the division of these doubtful states a small group of third-party electors, representing perhaps not more than four or five states might constitute the balance of power that would bar either of the old-party candidates from election. In that case the election would be thrown into Congress.

But the prestige accruing to the third-party group able to accomplish even such a temporary deadlock would make it a factor to be reckoned with and give it a wholesome footing for future growth.

This is the point of view from which the third-party plan is being approached. There will be no expectation of running away with the presidency, as the Bull-Moose party attempted in 1912. The man who heads the ticket must be contented with the chance to be the John F. Kennedy of 1912. The man who heads the ticket must be contented with the chance to be the John F. Kennedy of 1912.

SEASON'S BILL AT PALM BEACH WILL BE 50 MILLION

By ROBERT T. SMALL.
(Copyright, 1924, by The Bee.)
PALM BEACH, Fla., Jan. 29.—For the luxury of a few winter weeks amid waving palms and brilliant tropical flowers, the season at Palm Beach colony will spend all of \$50,000,000 this season.

This estimate has been conservatively made and setting to Palm Beach and the much greater expense of getting away. It includes the intake of the two great hotels here on the land, one of them the largest resort in the world. It is nearly a ten minute walk down the main corridor running the entire length of this building. The hotel is a masterpiece of architecture and when it is realized that \$20 a day is a modest average for each guest, some idea of the revenue can be gained.

The mere matter of bed and board, however, is comparatively a small item in the daily life of the Palm Beacher. There is an expense to be met at every turn and it is this very expense which makes the place so popular. Counting a wheel chair to the beach and back, and the use of a room in the casino, you can't take an average of \$5 provided you don't lose any balls or wagers. The \$5 merely represents what the average man would expect to pay for a day's entertainment, of course, it is greens fees and caddy hire.

But, spend as they will, the poor "outlanders" who come to the beach, but a drop in the bucket to the total of Palm Beach's \$50,000,000 season. The cottagers are the ones who pay and pay and pay. And they, too, have their expenses. The cottage of Philadelphia for instance, if she follows her custom of last season Mrs. Stolesbury, Chataleone of the beautiful estate known as El Mirasol, will entertain from thirty to forty persons daily at luncheon to say nothing of the elaborate dinners which are always scattered through her social program.

One of the most costly cottages here has brought down no less than four Rolls Royce's as a part of its automobile equipment. One car is for the husband, another for the wife and two for the guests as they may have through the season.

The yachts and houseboats anchored in Lake Worth or tied to the docks represent an expenditure of from \$15,000,000 to \$20,000,000 and an upkeep of fully \$1,000,000 to \$2,000,000 a month.

The clubs of Palm Beach are another great luxury in which millions of dollars are spent each year. Some of these are merely social clubs for dining and dancing and bridge and mah jongg. The Chinese game unquestionably is growing in popularity and usually one sees about two mah jongg tables to one of bridge. The stakes are rising, too, and it is easy to hear stories of great winnings and losses among the friends who meet to tear down the Chinese wall, who listen to the sire voice of the East, wind and who try to conquer Dame Fortune by the pursuit of the elusive bamboo.

When, of course, there is Bradley's, where green topped tables abound, and where is virtually no limit to what the young bloods among the millionaire colony can stake on the turn of a card or the palm click of the little roulette ball as it flies spinning into the lucky number and color. Also there is the bootlegger, who comes high, but eventually the cottage simply must have him.

Yet, with all its wealth, all its display, all of its prodigious spending and its occasional fling at game of chance, Palm Beach has a very large bit of piety in its make up.

Sunday here is almost as quiet as in some New England hamlet. Of course, there are golf and some bathing, but there is much of church going and a general cessation of social activities. Even Bradley's is closed as tight as a convent. In the life of Palm Beach, Sunday is the day when the sun is out, the birds are singing and the whole world is at peace.

But maybe there is something in the fact that the Newport season is quite long and the Palm Beach season is quite short. Scandal would have to be a fast worker down here.

The fourth will be brought to trial here within several weeks.

However, several prominent educators who absorbed his preliminary talk, as an example of order to a number of school children, report his speech as "nicely flavored" but not too blood-curdling for their-loving boys and girls.

His experiences in tracing the "wilderness" of gun fight and hand-to-hand encounters reads like "bamboozling fiction," they said.

Does Not Find Picture Immoral But He Bars It

By M. S. NEWTON.
(Copyright, 1924, by The Bee.)
QUEBEC, Jan. 29.—"Flaming Youth" is an immoral picture not to be shown in Quebec without violating the criminal code, no matter whether the Quebec motion picture censor board which passed it thought it moral or not.

This is the ruling of Judge Leclerc, who happened to add, however, that he personally as a citizen, did not find the picture immoral. On the contrary, certain scenes which being shown and he had to sustain action brought by Judge Choquette, who seized the film and had the theatre operator and Lessee arrested.

The theatre owner was fined \$500, though the judge found he had acted in good faith and that the picture had been shown in the case inasmuch as it tested the extent of the power of the board of censors.

RHEUMATICS

Throw away your crutches, use Rheuma and walk without aching pains and stiffness, says Patterson Drug Co., who sells this great therapeutic remedy on the no-pain-no-pay plan. Rheuma is not expensive and sold by good druggists everywhere.

BRITISH RAIL STRIKE ENDS

(Associated Press Leased Wire)
LONDON, Jan. 29.—The strike of locomotive men which has seriously interfered with British traffic in Great Britain since January 29, ended at 4:30 o'clock this morning when representatives of the Associated Society of Locomotive Engineers and Firemen and the Railway Conciliation committee of the trade union congress.

The terms of the settlement have not yet been announced, but it was evident today that they would not have to be submitted to a vote of the members of the Associated Society, which called the strike as a protest against a wage reduction authorized by the Railway wage board.

Strikers were instructed to resume work immediately, according to Union Leaders, who said that trains probably would be running on virtually normal schedules by evening.

RECORDED AT CAPITAL.
(By the Associated Press.)
WASHINGTON, Jan. 29.—An earthquake of moderate intensity was registered between 8:30 and 10:00 p. m. last night on seismograph at the Georgetown Observatory. The seismograph, announced that the quake apparently was about 4,600 miles south of Washington.

RUMORED TO HOSPITAL.
P. H. Drewery, who was struck and injured a few nights ago by Police Officer R. A. Adams' automobile, was removed yesterday to Edmunds hospital for purpose of having x-ray pictures made to determine more accurately the injuries sustained. The plates are expected to reveal if any fractures were sustained.

Four Earthquake Shocks Recorded

(Associated Press Leased Wire)
BUENOS AIRES, Jan. 29.—Four earth shocks began in at 9:45 o'clock last night were registered by the seismograph at La Plata Observatory. The last quake was violent. The center of the disturbance, according to the seismologists in Chile, between Santiago and Valparaiso.

Advices from Mendoza, in Western Argentina, say that the shock was felt in Chile from Talca to La Serena.

For SURE relief from constipation

be sure you get ALL BRAN—Kellogg's!

If you suffer from constipation, you cannot afford to lose time experimenting. The poisons which accumulate while you try ineffective measures can undermine your health.

If eaten regularly, Kellogg's Bran is guaranteed to relieve permanently the most chronic cases of constipation, or your grocer will return your money. It brings you SURE results because it is ALL bran. Nothing but ALL bran can be wholly effective. Doctors know this! That is why Kellogg's Bran, cooked and krumbled, is endorsed and prescribed by physicians everywhere. It will bring back your health to you. So be sure you get Kellogg's Bran, cooked and krumbled.

You could tell Kellogg's Bran with your eyes closed—once you had tasted that delicious, nut-like flavor.

Kellogg's Bran is quite different from ordinary unpalatable bran. The wonderful flavor of Kellogg's is exclusive. You will like it.

Eat at least two tablespoonfuls daily—in chronic cases, eat with every meal. Eat with milk or cream. Sprinkle it over other cereals. Cook it with hot cereals. Try it in the recipes which are given on the package—such as bran bread, muffins, griddle cakes, etc.

But start eating Kellogg's Bran today. Have each member of your family eat it. Enjoy that perfect health which should be yours. Kellogg's Bran, cooked and krumbled, is sold by all grocers. It is served in individual packages by the leading hotels and clubs. Get it at your restaurant, too! Made in Battle Creek.

Another Danville Woman Praises Nanzetta

Mrs. J. F. Miller, of 535 1-2 Claiborn St., highly praises Nanzetta The Great Herbeologist, for what he did for her little 10-year-old son. Mrs. Miller's statement is as follows:

"My son had been having scary spells in his sleep since infancy and I had tried several doctors and they said a kidney worm caused his condition, but they were unable to do anything for him. He would get up out of bed and just run all over the house seemingly scared to death, his eyes were open, but he seemed to be afraid of his father and me too and we would have to work with him for some time before we could ever get him to become quiet."

"He got a newspaper with testimonial of Nanzetta's work in it and asked me to read them to him, he said, 'Mama if that Indian doctor stays here long enough perhaps we can get cured.' I had my husband to get a package of Nanzetta's Worm Remedy and after giving him the contents he has had only one spell and then he was delirious from temperature with chicken pox and this was before Christmas and he hasn't had no more spells since."

(Signed.) "MRS. J. F. MILLER." "Jan. 28, 1924."

Nanzetta's Remedies are on sale at all local drug stores, also at my office.

Nanzetta Medicine Co.

KILL THE SMITH BILL

Opposition to the Smith bill under
 the terms of which the major part of
 the tax on machinery in Virginia
 manufactures would be secured for
 the state, is a perfectly natural cir-
 cumstance. The cities of Virginia are
 having sufficiently rough sledding on
 their present incomes without spring-
 ing a further leak in their treasuries,
 as would be the case if the Smith bill
 were to become effective. Danville
 would be deprived of more than \$40,-
 000 through the operation of this bill
 and of the sum, \$17,000 would be the
 amount due to the city schools. It is
 apparent that in Richmond today a
 considerable degree of opposition will
 be expressed to the bill especially
 from the cities which will be made
 the chief sufferers. Some of the
 counties also would be materially af-
 fected. When one contemplates the
 amount of machinery in the local tex-
 tile mill at Schofield and the fact that
 at present it bears the same tax
 as the property tax, one visualizes the
 extent of the loss which would be
 suffered by the people of Pittsylvania,
 through the operation of the Smith
 bill. Segregating the major portion
 of the machinery tax to the state and
 leaving a pittance for the treasuries
 and the towns would inevitably mean
 a new form of assessment to recoup
 the cities and the tax burden is al-
 ready sufficient to provoke a general
 cry of protest.

The council finance committee has
 done wisely to send the commissioner
 of the revenue and the purchasing
 agent to Richmond to swell the
 weight of the public protest to the
 measure which we hope to see die
 painlessly in committee.

FROM LOWLY ESTATE

It is a frequent boast that Amer-
 ica is the land of opportunity. It is.
 Men here have climbed from begin-
 nings amid the direst poverty to the
 pinnacles of success. Birth has not
 counted. It has been different in
 Great Britain. There classes have
 been stratified and it has been dif-
 ficult to ascend from one grade to an-
 other. A feeling that one should re-
 main where fortune of birth placed
 one has been dominant. Now and
 then, however, one would break
 away, defying the customs of the cen-
 turies.

We may not admire Ramsey Mac-
 Donald in all respects, yet his rise
 from the humblest beginnings to the
 highest position in the empire is not
 less remarkable than the story of
 Americans on whose lives we often
 dwell as illustrative of what this land
 offers. It is to his own efforts and
 persistence toward an end that today
 he stands before the world. He may not
 succeed in his present position. His
 progress is not without support and
 his rise is not without a brief but he
 has shown the way where the great-
 est Britons have influenced the course
 of history.

It is not probable, though he oc-
 cupies the position, that he can
 carry with him the extreme poli-
 cies which have been a major
 factor of the parliament of the peo-
 ple. He is a man of his own
 mind. He is not an obedient
 man. He is a man of intelligence and
 knowledge whose mind has followed
 a train of thought with the mass of
 his countrymen. That such a one
 should be called to the head of gov-
 ernment is all that is remarkable.
 Great Britain has had other men of
 obscure birth rise to power but none
 possibly climbed from such lowly es-
 tate as the new prime minister.

TITLES AT \$20 A WEEK

Twenty men who claimed European

titles recently applied for \$20-a-week
 jobs as hosts and instructors in a New
 York dancing academy. There were
 six impecunious Austrian counts,
 three Russian noblemen, three hold-
 ers of alleged British titles, and the
 rest said they could prove their right
 to rank, more or less high, in other
 foreign countries.

Thus New York competes with
 Paris for the services of aristocracy.
 One can never be sure nowadays that
 the courteous taxi-driver who is
 grateful for a small tip is not a duke
 in his own right, or that the baggage-
 smasher with small but horny hands
 may not once have felt insulted at a
 suggestion that His Majesty the
 Prince should handle even a small grip.

Tennyson wrote how "the grand
 old gardener and his wife," meaning
 Adam and Eve, "smile at the claims
 of long descent." They must have
 plenty to grin about today, when the
 entire aristocracy of whole empires
 are fugitives, living catch-as-catch-
 can in foreign lands, while other no-
 bles, once the proprietors of great es-
 tates, are releasing their possessions
 one by one to get money with which
 to meet the high cost of living. Who
 so harassed as they?

If the former Laureate were alive
 today, he might be tempted to change
 his famous lines to read:

"Good jobs are more than coronets,
 And steady pay than Norman
 blood."

CRIME NEWS.

(Roanoke Times.)

Recently the managing editors of
 Texas papers held a meeting in Hous-
 ton for the purpose of a frank ex-
 change of views on topics pertinent
 to their work and Marcellus E. Fos-
 ter, president and editor of The
 Houston Chronicle, who conducts a
 column on the third page of his paper
 as a daily feature, seized the occasion
 to address his fellow workers pointed-
 ly as follows:

"Don't you think we have all been
 too prone to give too much promi-
 nence to the murderer and too little
 to the victim of the coward's bullet?
 Instead of sending a star reporter to
 interview the man who has just killed
 another man or a woman, why not in-
 terview those who have been made to
 suffer by the death of a loved one?
 Let us give word pictures of the sor-
 row in a home which some cowardly,
 murdering scoundrel has just enter-
 ed?"

Why not devote less space to the
 murderer and more to the person killed
 or that person's family?
 "In Houston recently a man killed
 his sweetheart without the slightest
 warning and with no excuse on God's
 earth. The victim of his bullet has
 been forgotten. The murderer has re-
 ceived column after column of no-
 toricity. In the estimation of some
 poor, beclouded minds he has been
 glorified. Women sent him flowers,
 newspaper reporters printed every
 word he said, and he has been promi-
 nent on our first pages than the President's
 message."

"I know the readers of newspapers
 grab for such stuff, but should we ap-
 pease the appetite for criminality on
 such low curiosity?"

"Isn't there something we can do in
 our news columns to make the murder-
 er hated and despised, rather than
 seemingly glorified? Can't we show
 the cards in their true light?"

"Let us try to show these fellows in
 their true colors. Don't make heroes
 of them, but paint them in all their
 shrieking, cowardly nature. Send
 your reporters to the homes that have
 been devastated by the assassin's
 bullet, rather than to the jails where
 the murderers and their lawyers await
 you."

"Let us continue to print crime news,
 but let us try to make crime news
 which is worthy to our readers. In
 my opinion, the newspaper, by con-
 sidered effort, can do more to les-
 sen crime than the law of the courts?"

Mr. Foster raises no new point, al-
 though an unsettled one. The extent to
 which newspapers should publish and
 "play up" criminal news is a question
 that has caused many a publisher
 as well as a legion of managing edi-
 tors, to do a great deal of hard think-
 ing. And opinion is by no means
 agreed on the best policy to pursue.

That the great influence of the
 press should be used to discourage
 and keep down crime is so obvious as
 not to require argument, of course.
 All conscientious newspaper men are
 agreed that with singular unani-
 mity. But they are by no means
 agreed as to the best course to pursue
 to achieve the desired end.

Should crime be ignored or, if not
 ignored, minimized? Or should it be
 exploited, even with singular unani-
 mity, for the sake of a fancied "news value"
 that in the opinion of many is purely fic-
 titious?

These are questions which are raised
 by Mr. Foster's interesting and in
 many respects sound homily to Texas
 managing editors, questions to which
 no offhand answer can be given with
 any degree of positiveness. The pub-
 lic is entitled to the news but should
 the public's inordinate appetite for
 sordid details be satisfied in order that
 the newspaper may carry favor with the
 considerable number of readers who
 see hand devour this class of news
 with avidity? Does the blame for the
 problem with which crime news
 is displayed in the columns of the
 American press rest with the news-
 paper or with the public? These are
 questions that must necessarily be
 taken into account in any sane un-
 biased and intelligent analysis of the
 situation. Mr. Foster raises an inter-
 esting and, thus far, unsettled ques-
 tion.

RUMMAGE SALE NEWS-THIRD DAY-
 MRS OSWALD UPJOHN STARTED A FUSS
 WHEN SHE FOUND A DRESSING SACK FOR SALE
 THAT SHE HAD GIVEN MRS DE VAUGHN FOR A CHRISTMAS GIFT

Scoop's Colyum

DRAKES BRANCH, January 29.—

(Grapevine Wireless.)—Uncle Windy

Wolf concludes his Pleasant Gap re-

view of the Chinese game,

Mah Jong.

Explanation of difficult

points:

The game itself is very

simple. As one of the au-

thorities says, "The fun-

damentals of the game

are so simple that a child

of seven to ten years

readily learns it." In fact

many a child of seven to

ten years learns it so well

that by the time he is

sixty he can play it. The

game is played "with a

set of 136 colorful tiles, similar to do-

minos but instead of having dots on

them they are painted with myster-

ious looking signs, something like

those wonderful hieroglyphics they

found in Tut-something's tomb over

in Egypt. Well, these signs on the

tiles mean Flowers, Dragons, sea-

sons, winds, lakes, sunrises, traf-
 fic rules, collars and shirts.

The Winds are as follows: "Sou'-

Sou' by East, Sou' South-East, South

East by Sou', South-East, South East

by East, East-South-East, East by

South, East-East.

The seasons are the usual ones:

Winter, Summer, Spring, Fall, Late

Spring, Dog-Days, etc.

The Flowers are Plum, Lily, Bam-

boo, and Chrysanthemum. Some play

include Skunk, Cabbage and Poison

Ivy, which are the Jokers.

Procedure of Play.

To quote the rules: "The tiles

must first be thoroughly shuffled.

Then each player takes 34 of these

tiles at random, arranging them side

by side in a row of 17 tiles long and

two tiers high." (The careful hostess

will provide high chairs in order that

the guests may see over their rows.)

Then follows the most exciting part

of the game, "breaking the wall."

"To find the point at which the wall

is to be broken, the player who is

East Wind throws the dice, the num-

ber indicating the player who is to

break the wall." When the point on

the wall has been carefully marked

with chalk or pencil, the player who

is to break it sets to work. If he is

unskilled in the use of tools or if

metal laths have been used in con-

struction of the house, this may take

him all evening. Courses in home-

wrecking and house-breaking have

THE REFEREE

BY ALBERT APPLE

MAYBE

Of interesting things, there's never

a shortage. A European physician

claims he can tell the sex of a child

several months before birth, by a

new blood test. This seems no more

implausible than the theory of the

circulation of the blood when first

advanced by Harvey.

A group of mystics, diving in

psychic phenomena, claims it has

word from the Other Side that a Blue

Face is due to appear on earth to

share things with the White, Yellow,

Red, Black and Brown Races.

STOIC

Marshal Foch made the decision

not to keep the Germans on the run

and invade Berlin in 1918, according

to Major Gen. Henry T. Allen, for-

mer commander of the American

Army of Occupation. Ferehah and

other military heads left the decision

to Foch.

Foch apparently thought the in-

vasion of Berlin would make too

much territory to police. It was one

of the most important decisions in

history. We wonder if Foch has re-

gretted it.

FATAL

Twenty-one thousand Americans

will be killed by accidents this year

while on industrial jobs, warns the

National Industrial Conference

Board. An additional 9000 employees

and self-employed people will be

killed.

Whether or not your name will be

included on this list may depend

largely on your personal caution.

Safety appliances help a lot. But

constant personal caution is the best

safety device. Be as careful, when

working around danger, as when

driving an auto past a schoolhouse.

HEADQUARTERS

Germany used to be the chief mag-

net for students who wanted to "get

the final polish abroad." But the

United States now is "finishing head-

quarters" for the world, 10,000 stu-

dents a year arriving here from Eu-

rope, Asia, Africa and South Amer-

ica. So reports Dr. Stephen P. Dug-

gan, director of the Institute of In-

ternational Education.

They come here from the far cor-

ners of the earth. Boys who want

to quit school and go to work, should

ponder this.

AGILE

Two out of every five American

colleges are "psychological

THE POISONED GIRL

replied: "Loafing about a great city

between midnight and dawn." His

reason he gave as follows: "The

few people about you would be in

bed; were it not for some unusual

cause: love, purpose of crime, agony,

of apprehension, or black poverty.

Lonely under the stars, these people

seek company they willingly confide

in you; and even enlist you in their

schemes." Thus Mr. W. L. George

ROME TREATY ENDS FIVE-YEAR DISPUTE

BY GEORGE SLEDES
(By Chicago Tribune Service)

ROME, Jan. 28.—The treaty of Rome, which Premier Mussolini and Premier Churchill and foreign Minister Nitti, of the Yugoslav government, today signed, ending a five-year dispute, an "accord of Rome" also was signed but must be ratified by the parliaments of both countries or by a royal decree.

Mussolini remains Italian, but Yugoslavians retain the port and other concessions.

Thus Gabriel D'Annunzio's militarism actually has brought results, although M. D'Annunzio today is almost completely forgotten.

Formerly Mussolini affixed the fascist symbol under his name but M. Churchill had no seal.

Italy is doubly happy today when it was announced that Princess Yolanda had given birth to a girl.

"Eat and Get Well"

Never was a title more fitting to any subject than the title of

DIABETES

There are no "ifs" or "ands" about what you should eat and what you should not eat. You eat what you need. This book will be sent FREE to any sufferer of diabetes. Write M. Richard, Dept. 399, 220 West 42nd Street, New York.

A Good Thing—DON'T MISS IT

Send your name and address plainly written together with 5 cents (and this slip) to Chamberlain Medicine Co., Des Moines, Iowa, and receive in return a trial package containing Chamberlain's Cough Remedy for coughs, colds, croup, bronchitis, "flu" and whooping cough, and tickling, throat; Chamberlain's Stomach and Liver Tablets for stomach troubles, indigestion, gas, pains that crowd the heart, biliousness and constipation; Chamberlain's Salve, needed in every family for burns, scalds, wounds, piles, and skin affections; these valued family medicines for only 5 cents. Don't miss it.

"DIAPEPSIN" FOR INDIGESTION, GAS, UPSET STOMACH

As soon as you eat a tablet or two of "Dapepsin" your indigestion is gone. Heartburn, flatulency, gas, palpitation, or any misery from a sour, acid stomach ends. Correct your stomach and digestion for a few cents. Each package guaranteed by druggist—adv.

WOMEN NEED SWAMP-ROOT

Thousands of women have kidney and bladder trouble and never suspect it.

Women's complaints often prove to be nothing else but kidney trouble, or the result of kidney or bladder disease.

If the kidneys are not in a healthy condition, they may cause the other organs to become diseased.

Pain in the back, headache, loss of ambition, nervousness, are often times symptoms of kidney trouble.

Don't delay starting treatment. Dr. Kilmer's Swamp-Root, a physician's prescription, obtained at any drug store, may be just the remedy needed to overcome such conditions.

Get a medium or large size bottle immediately from any drug store.

However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure to mention this paper—adv.

CLAIMED AT THE GRAVE!

MRS. KITTY LAMBERT AND HER BABY, JOY.

By MILTON BRONNER
NFA Service Staff Correspondent.

LONDON, Jan. 29.—As the mourners, hushed in silence by death, watched the lowering of the coffin of Captain Richard Lambart, war hero and aristocrat, a little figure, pathetically dressed in cheap black, edged her way through the richly-garbed throng.

Some tried to stop her. But there was no staying her. She pushed her way to the grave and cried.

"I am taking my place beside the coffin by supreme right. The dead man is my husband."

The hush grew deadlier. None of the dead man's relatives knew of his second marriage. The mourners quickly dispersed. But one remained. She carefully placed a small bunch of white chrysanthemums on the mound and sobbed:

"Baby Joy says 'Good-bye, Daddy.'"

And that was all. For it was the closing chapter of a tragedy, as gripping as any invented in fiction—a tragedy of a girl who married out of her class.

"Captain Lambart ran a restaurant in London," Kitty Lambart told me. "We met when I was given employment. Later we were quietly married. He wanted to keep our wedlock

secret so that he would fall heir to certain legacies.

"Then my bitterness began. I was married, but I had to hide my wedding ring. I was married, but my husband kept the fact hidden. I was married, but he continued to be the boss and I the hired waitress.

"Imagine my feelings when some of his fine lady friends came in and were entertained. And I waited on him and them. He spoke to me coldly, severely, just as he would to any other employee.

"Once he fined me for leaving crumbs on a table.

"Then he fell ill and his relatives took him away to a private hospital, where he died.

"For a time his relatives sent me four pounds a week. After his death I got a final remittance of 5 pounds."

All that the future holds for Kitty Lambart is search for a job—and painful memories.

"But I can pass on this advice," she says, "so that others may be spared the suffering I have to endure: Girls marry in your own class and kind."

"Love cannot bridge the difference between a working girl and an aristocrat."

"A wife's devotion to her husband and his interests cannot overcome family prejudices."

"I am engaged," said the taxi-driver, as Mrs. Dorothy Parker was about to enter the cab.

"I hope you'll be very happy," she said, meltingly.—New York World.

HEAL SKIN DISEASES

Apply Zemo, Clean, Penetrating, Antiseptic Liquid

It is unnecessary for you to suffer with Eczema, Blisters, Ringworm, Rashes and similar skin troubles. Zemo obtained at any drug store for 35c, or \$1.00 for extra large bottle, and promptly applied will usually give instant relief from itching torture. It cleanses and soothes the skin and heals quickly and effectively most skin diseases.

Zemo is a wonderful, penetrating, disappearing liquid and is soothing to the most delicate skin. Get it today and save all further distress. Zemo Soap, 25c—Zemo Ointment, 50c.

NEVER SAW YOU LOOK SO WELL!

WHAT a little thrill of pride it gives you when your friends speak of your healthy, youthful appearance. And you feel ashamed when you know your skin is blotched, your eyes dull and your cheeks pale.

Enrich your blood and tone up your system by taking Gude's Pepto-Mangan and watch those distressing symptoms disappear. It has restored thousands of other ill, run down people to health and vigor—gave it a chance to do the same for you. At your druggist's, in oil liquid and tablets.

Free Tablets To see for yourself the health-building value of Gude's Pepto-Mangan, send for free package. J. Breitenbach Co., 55 Warren St., N. Y.

Gude's Pepto-Mangan

tonic and Blood Enricher

BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets are a Harmless Substitute

Dr. Edwards' Olive Tablets—the substitute for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. These little olive-colored tablets are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel.

The pleasant little tablets do the good that calomel does, but have no bad after effects. They don't injure the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So do strong liquids. It is best not to take calomel. Let Dr. Edwards' Olive Tablets take its place.

Headaches, "dullness" and that lazy feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets when you feel "lacy" and "heavy." They "clear" clouded brain and "perk up" the spirits. 15c and 30c.

Scott & Bowne, Bloomfield, N. J. 25-32

Overnight Features

BY THE ASSOCIATED PRESS

Senators Walsh, Montana, and Robinson, Arkansas, ask for the immediate resignation of Secretary Denby.

White House gives the unofficial impression that President Coolidge has no present intention of asking Mr. Denby or Mr. Daugherty to step out of the cabinet, and that Mr. Coolidge will stand behind them and Theodore Roosevelt unless evidence is revealed indicating wrong-doing on their part.

The NUT CRACKER
BY JOE WILLIAMS

A French boxer has been robbed of his title and the remarkable thing about it is that no New York judges were at the ringside.

They are going to take away Firpo's title as heavyweight champion of South America. And it is feared the process will entail as much torture as eliminating dandruff from a second-hand toupee.

There seems to be no end to the surprises of the year. Willie Hoppe won another billiard title and March, according to well-founded reports, is to follow February.

Joe Kirkwood knows more golf tricks than any other player. It goes without saying that if he ever wins a title there'll be a trick in it.

In sending arms to Mexico the government is rightly requested by Mr. Cobb to play off those belonging to his pitchers.

Headline warblers, "English Champion Also Comedian." What's strange about that?

PREDICTS JOHN DAVIS WILL BE NEXT EXECUTIVE

(By Chicago Tribune Service)

ATHENS, Jan. 28.—"I am confident that John Davis will be the next president of the United States," declared Henry Morgenthau, the financier, before the American Club today. "Hiram Johnson is as just as determined to split the Republican party as Roosevelt in 1912 and if he goes the Democratic candidate will win."

Mr. Morgenthau, who has made a dismal failure of the League of Nations' effort to rehabilitate the Greek refugees, has decided to return to America in May or June and become financial manager of the Davis campaign.

Al Smith has been eliminated because Tammany has made a complete survey of the country in the past few weeks to determine if the time had come when a Roman Catholic had any chance of being elected president, and the survey has been completely discouraging. The Democratic leaders in Texas and other southern states where they are strong have reported that these states will go Republican.

FIVE BROTHERS FORM TEAM

TOP, LEFT TO RIGHT: BILL, JACK, FRANCIS; BOTTOM JOE, JIM

SAN FRANCISCO, Jan. 28.—The California, and covered some outlying territory, about a defeat this year this team plays together. They are all McGilchreys. Bill, 19, is a senior, and the Oregon Aggies 34-13, and toward Joe, 21 center, Jim, 22, forward, Francis, 16, guard, and Jack, 22, guard. In addition to these five, since they were old enough to toddle, brothers, there is a routine section of their team work can't be beat. Three brothers, Joe, Jim and Jack, played on a team which reached the national championship in the national tournament the home town, Livermore, went two years ago.

Sale of Mays to Cincinnati Marks Passing of Ban Johnson's Jinx

(By NEA Service.)

NEW YORK, Jan. 28.—Baseball is a mighty fickle pastime. In the passing of Carl Mays from the ranks of the American League goes the player who ever since his coming to the American League has been a storm center.

Mays is the player who almost disrupted the American League. Mays is the individual largely responsible for the position of affluence now held by Judge Landis. Mays is the player who broke the power of Ban Johnson as the dictator of baseball.

Mays first gained fame in Boston. After becoming a national celebrity he became temperamental. It is a matter of baseball history how, prior to an important game between Cleveland and Boston, he held up the game 10 minutes by refusing to pitch until Owner Frazee had given him a new contract calling for an increase of \$1,000 in salary.

The new clause calling for the extra money was drawn up on the Boston bench and Mays stopped his pitching long enough to sign the papers.

That was the first episode in the career of Mays as a belligerent in the baseball ranks. From that time to his passing he has ever been a raging storm center.

In Chicago one day the White Sox began to hit his delivery rather freely and his support wobbled badly. Mays walked off the field, declaring that he would never pitch another game for Boston and that he would have to be added to a club up in the race, preferably to New York.

Owner Frazee later made such a trade. The moment Mays was traded, President Johnson announced his indefinite suspension. The case was taken to the courts. Baseball law will not hold in court. The New York club was granted a temporary injunction that prevented President

Johnson from keeping Mays out of the game.

At the close of the season the American League was split in two factions over the Mays affair. Five clubs for Johnson, three lined against him. The National League, quick to take advantage of the split in the usually solid ranks of the American League, jumped at the opportunity to remove Ban Johnson from his power as the real head, the dictator of baseball.

The National League presented the idea of a baseball commissioner, who would be the court of last resort. The five American League club owners who were with Johnson fell in line, when New York, Boston and Chicago threatened to secede from the American and join hands with the National League. Then came the unfortunate Chapman affair that almost caused the American League players to go on strike as a result.

And now the player who for a half dozen years has been a thorn in the side of Ban Johnson and the American League passes to the rival organization.

Truly, a wise guy made the remark that one should take nothing for granted in baseball.

ADVANCES IN GAS PRICES

(By The Associated Press.)

NEW YORK, Jan. 28.—Advances of one and two cents a gallon in the tank wagon prices of gasoline were put into effect generally in states along the Atlantic seaboard today. Increases announced by the Standard Oil Company of New Jersey brought the prices to 19 cents a gallon in Maryland, Virginia and West Virginia, and 19 1-2 in New Jersey and the District of Columbia, exclusive of taxes. The Atlantic Refining Company raised the price 2 cents to 19 cents.

"Don't Pity Me Because I'm Blind"

(By NEA Service.)

MINNEAPOLIS, Minn., Jan. 28.—Blind for 18 years, Frederick S. Attwood of this city has refused to be thrust off the path that leads to success.

He gets as much enjoyment out of life as his more fortunate brethren. He goes to the movies, to football games, runs his typewriter, cuts the lawn and trims the shrubbery at home. When winter comes he packs his suitcase and, without a traveling companion, takes the road on a lecture tour.

He is a widely known lecturer and is supreme prelate of the supreme lodge of Knights of Pythias.

"Opportunity, and not charity, is what blind men need," he says. "I haven't a very high opinion of the man who thinks if he buys a pencil of a blind man he must leave the pencil behind as a charitable act."

"There are 198 different opportunities for blind men—all useful trades or occupations. A man without sight is no more to be pitied than a man with one leg."

FREDERICK S. ATTWOOD.

A BRIEF RESPIRE

WIESBADEN, Jan. 28.—The former royal theatre which was destroyed by fire last summer has been rebuilt in record time with funds gathered from all parts of the world and reopened with a performance of "Lohengrin."

The Prussian government, the municipality of Wiesbaden, and friends of the theatre who have enjoyed the performances while living in this resort city, all joined in the campaign for funds to restore the historic theatre. Many Americans contributed.

A Boston physician on a western trip with his wife wrote home they would return Monday on the 10 p. m. train. Their two children, aged 9 and 11, received very definite instructions not to meet them at the depot.

When the parents arrived at 11:30, their train being an hour and a half late, they were surprised to see Ernest and Alice waiting for them on the station platform.

The mother hurried forward to ex postulate, but was cut off by the shrill voice of Alice crying:

"Hurry up, mother! Don't stop to talk. The taxi's up to \$7.00 already." —Boston Transcript.

U. S. GOVERNMENT IS PAYING LOW RENT FOR ITS OFFICES

WASHINGTON, Jan. 28.—Office space required by the government's executive departments in Washington aggregates 13,674,929 square feet, or almost 314 acres, distributed in more than 200 buildings. In addition, the Capital and the Senate and House of Representatives office buildings used by Congress total about 2,000,000 square feet.

In making the report of the Public Buildings Commission of the Senate, Senator Smoot recently urged adoption of a program, to expend \$50,000,000 over a period of ten years for public buildings in Washington which, he said, would dispense with the need for renting buildings here and provide for the needs of the government for the next 20 years.

The government now pays almost \$600,000 a year for buildings rented in Washington, paying for ordinary space at the rate of \$1.50 a square foot. The Interstate Commerce Commission occupies an entire building on which \$72,058 a year rental is paid for 186,272 square feet. The Department of Commerce occupies another containing 182,954 square feet of space for which \$65,500 yearly rental is paid. The Department of Justice pays \$75,000 a year for an entire building containing 110,000 square feet of office space whose owners each month implore the government to vacate, stating they have an opportunity to rent the building for \$225,000 a year. The government's contract has expired, but the owners have not begun legal proceedings to oust the Department of Justice.

"Jessie, I have told you again and again not to speak when older persons are talking, but wait until they stop."

"I've tried that already, mama. They never do stop." —Pearson's Weekly (London).

Jack Dempsey Will Be Seen Here February 18th

EVERYTHING IS ARRANGED FOR CHAMP TO COME

"18th O' K."

This brief message received by L. C. Moody late last night from Jack Kearns, manager of "Stirling" Jack Dempsey, makes it certain that the world's heavyweight boxing championship holder will be seen in the real flesh in this city on Monday, February 18th. The wire was relayed to the post by Moody yesterday, pointing out to Kearns that the date he first suggested—February 17th—was a Sunday and that he could not stage the event in Virginia on that day.

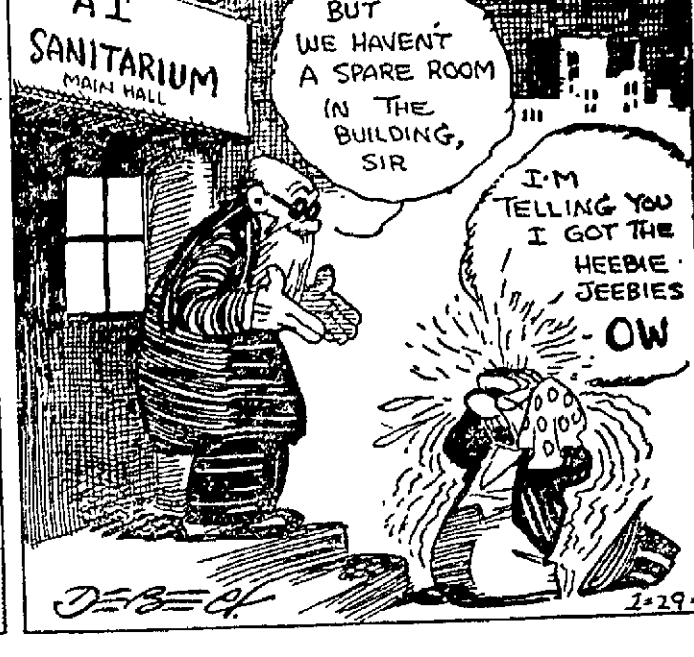

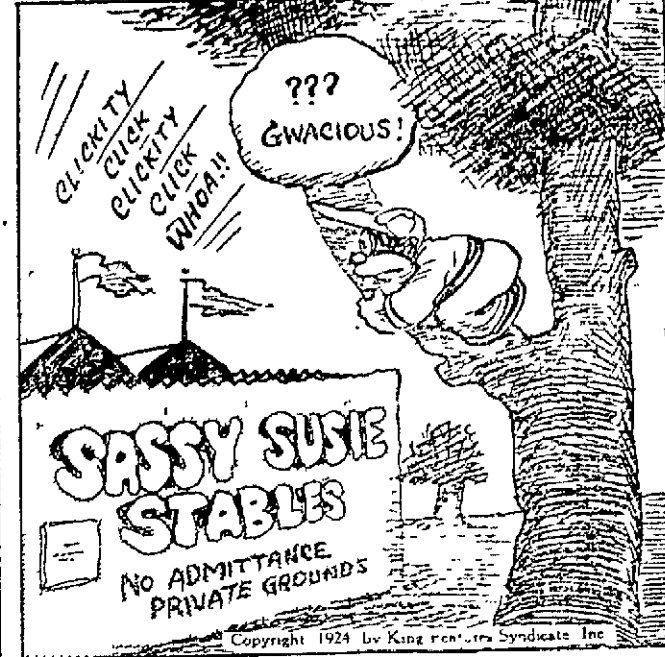

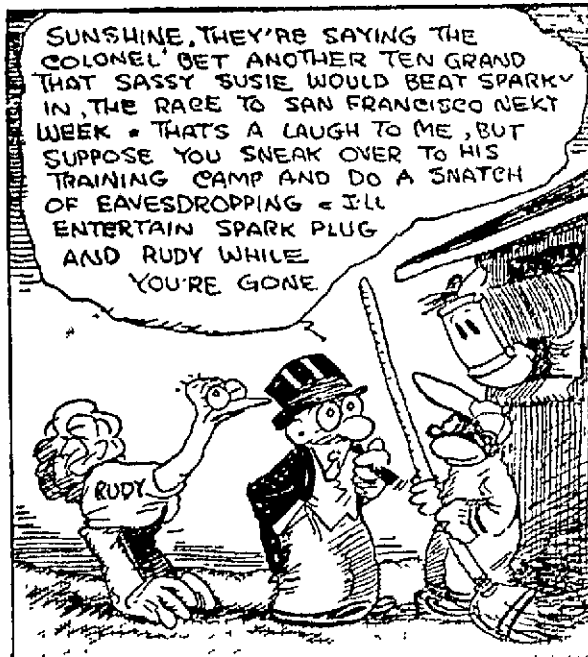

Moody has already ordered lithographs and intends circulating the surrounding towns and expects to draw a record crowd for the event.

The local sports promoter said this morning that he would leave here tonight or tomorrow for Raleigh where Dempsey is scheduled to give his first exhibition tomorrow night in order to have a personal talk with Kearns and to see just what sort of a show the champion gives. By so doing he will be better enabled to arrange for the preliminary fixtures which tentatively include two wrestling bouts.

Moody said that when he went to Raleigh he would be in position to give Kearns the guarantee then and there or if he preferred it, to post it at a local bank. The guarantee is \$1,500 or a thousand dollars lower than the first guarantee asked by Kearns.

BARNEY GOOGLE and SPARK PLUG

What Sunshine Saw Was Too Much for Barney

SPORTS GOSSIP

Uteritz, star quarterback of the University of Michigan football team, is as good a performer on the diamond as on the gridiron. It is said that he intends taking a while at major league ball. It is also hinted that Manager Branch Ruckey of the St. Louis Cardinals already has him tied up.

Ernie Goetzman, only Spaniard in the professional prize ring, continues to make a noise like a real star. Goetzman all but knocked out Joe Burman some weeks ago, and more recently he gave George Butch of St. Louis an artistic trimming.

Edith Cummings of Chicago, new woman's golf champion of America, is one of the longest woman drivers in the game. Few Americans can hit a golf ball as far as the slim Chicagoan, and the Misses Withers and Leitch of England have to step to keep up with her, long as they are off the tee.

There hasn't been an out-and-out champion in the Ohio football conference for five successive years, and the season has wound up in a deadlock with two or more teams having an equal claim. The conference has a membership of 20 and is, of course, too unwieldy.

"I regard Herbie Pennock as the best southpaw in the American League," says Babe Ruth. "I am glad to see him play the same club with him. When Miller Huggins secured him from the Red Sox he made the Yankees' pitching staff. Pennock, more than any other man on the Yankees, made possible our recent world series victory over the Giants. He rounded out our ball club. His victory, after the Giants had trimmed us game after game, was the turning point in the series." Some compliment from Babe Ruth.

Few, if any, American amateurs will cross the sea to play in the British amateur championship this year. Last fall a British writer went over to the States to see the event and for the title event and for the title trophy. Max Marston, new national champion, did plan to go over, but will probably change his mind. Marston is now recovering from an operation.

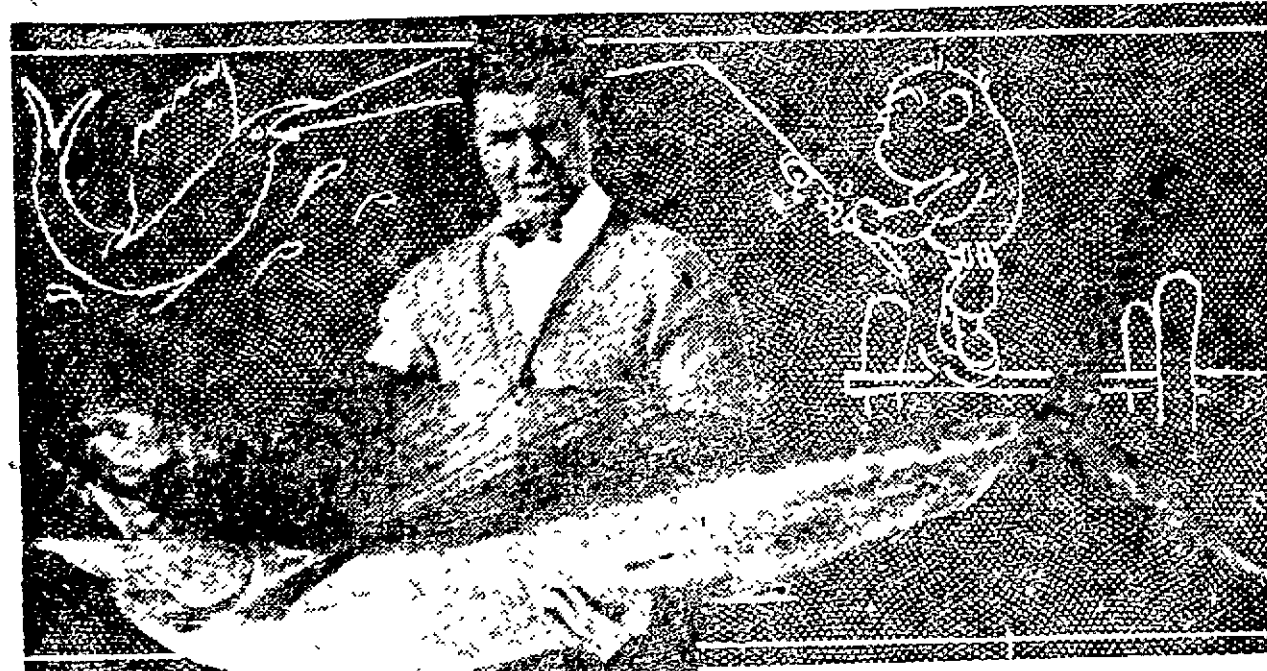

Tris Speaker is confident that Rube Lutzke will be a much improved ball player the coming season. Lutzke lacked only confidence in his real ability last year, according to the Cleveland leader.

First Baseman Lu Blue of the Detroit Tigers, who slumped badly in the latter part of last season, is hopeful of returning to his 1922 form at the plate.

Richmond, on learning that Danville had probably succeeded in getting Dempsey to invade the old Dominion, put up a \$2,500 and is going to have the "champion" over there the 15th of February. Kearns wired Moody that he could bring the Big One to Danville February 17, but considering the fact that the 17th happens to be Sunday Moody explained the circumstances to Kearns and asked if the 18th would be satisfactory. No doubt it will and Kearns merely overlooked the fact that the 17th was Sunday and Virginia has a whole book of laws on the subject of Sunday amusements in the state. If Sunday he would violate so many statutes it would take three generations to serve out his sentence.

Greensboro has signed Mike Fuhrey, the Winston shortstop, and they are waxing eloquent over there about the gladsome tidings. Greensboro had a hole at short last year and Charlie Carroll thinks Mike will fill it to a queen's taste which he no doubt will. Fuhrey wasn't the hardest hitting shortstop in the league last year, boasting of an average of around .250.

DEMPSEY LANDS A BIG FISH!

We are assured that the sea monster gave the heavyweight champion a terrible fight before succumbing, finally, to a volée of rights and lefts to the body which sent Gibbons staggering against the ropes under the blazing Montana sun—

Now what the heck are we writing about! Shux! Dempsey just went fishing down in Florida and caught a fish and here's the darn thing.

only, but Michael can certainly cover more ground in the short field than Ringling Brothers biggest tent and that is what the Greensboro fans have been yelling for and Mike will certainly do that little stunt or break a leg.

There will be no wrestling matches here this week but next week Promoter Moody is going to put on a match between Zeke Smith and some wrestler not yet decided on. Every body has been anxious to see just what Zeke can do as he hardly had a fair trial last week with Shimkus and Moody declares he is going to match Smith with a matman that will give the Richmonder a run for his money. There ought to be some little action in a match of that sort.

President Bramham has rounded up no less than 14 umpires for duty next year in the Piedmont and South Atlantic circuits. Here's hoping they are not the variety that will put blood in the eyes of the fans and incite said fans to heave pop bottles with much fervor and accuracy in the general direction of the little loved "umps."

Bill Pierre, the new Bull captain, is digging in after getting tog. The umpires for the Durham out of a quantity good enough to win in the Piedmont and still keep within the salary limit. William is endeavoring to get rid of a certain player who was with Durham last season and was one of the three highest salaried men in the loop. Friend Pierre is also strong on getting Pitcher French from High Point and went over to Pointersville the other day for the avowed purpose of securing the heavier but he didn't want part with his whole outfit in order to get French and so he came back empty handed. It seems that the High Point management thought Walter Johnson and French were about on a par in value and Bill couldn't see it that way. The backstopping manager also said he had been turning down good men merely because they required a salary higher than he could pay and stay inside the salary limit but that other clubs were signing these same men. Bill was wondering how these clubs expected to remain within the limit.

LANDIS AWARDS BALDWIN TO GIANTS

NEW YORK, Jan. 23.—The sale of the contract of Howard Baldwin, star pitcher, to the New York Giants for \$25,000 by the former owners of the Newark International League Club, was upheld today by Commissioner Landis over the protest of the newly organized syndicate now in control of the Newark Club. The commissioner's ruling was based upon a formal hearing attended by representatives of the Giants as well as former and present Newark Club interests. The decision in favor of the former Newark owners was based upon the existence of a stipulation in the franchise bill of sale, giving them the right to dispose of Baldwin and also upon the fact that the deal for the transfer for the club has not yet been completed, since no money has as yet changed hands.

THREE MORE GIANTS SEND IN CONTRACTS

NEW YORK, Jan. 23.—Jimmy O'Connell, the \$75,000 outfielder obtained by the Giants from San Francisco last year, today sent in his signed contract for 1924. O'Connell informed the club he is in excellent condition and hopes to improve on his 1923 showing, which was handicapped by illness.

Joe Oeschger, veteran twirler acquired from Boston, and Pitcher Claude Jernard, also returned their signed contracts.

These players bring the roster of signed athletes close to completion. The only holdout so far is Wayland Dean, pitching star, recently bought from Louisville.

WISCONSIN WILL COMPETE IN CLASSIC ON HUDSON RIVER

NEW YORK, Jan. 23.—The University of Wisconsin has accepted tentatively an invitation to compete in the intercollegiate regatta on the Hudson river at Poughkeepsie, June 17 for the first time in a decade. This announcement was made today by Maxwell Stevenson, chairman of the board of stewards of the Inter-

collegiate Rowing Association, after receipt of word from E. J. Jones, Wisconsin athletic director, but the Badgers, who competed in 17 regattas without interruption from 1898 to 1914, "are confident of being represented this year."

UNIVERSITIES TO RACE

(Associated Press Leased Wire) NEW YORK, Jan. 23.—The University of Pennsylvania has accepted an invitation to race the University of Virginia team in a match relay race at one mile at the Wilco A. A. Games on February 16.

The Sportsman By Walter Camp

(Copyright, 1924, by The Bee) NEW YORK, Jan. 23.—The Association of Golf Architects will be the latest addition to the ranks of sport organizations if present plans go thru. And judging from the amount of money that has been spent in fees for golf architects, there should be no trouble collecting dues for such an organization.

If the body will devote a part of its energy to the reduction of golfing costs it will be welcomed throughout the land. Meantime, John Anderson, one of our foremost golf writers, has given new impetus to golf cost deflation by an article showing that West and coast dues are approximately one third less than those of Eastern players.

He shows also that Henry G. Lapham, of the B. A. A.—by the way, Lapham is the man giving the new clubhouse to Yale—is a strong advocate of the cafeteria system in golf clubs, the West's excellent cost reducer.

Down at Annapolis they already have picked the crew that will be trained for the Olympic try outs. It consists of Parrish, captain of the 1919 crew, Graves, Sanborn, Johnston and Moore of the Olympic crew that won the championship in 1920. Higgins, Frayley and Boles of the 1922 crew, and Walsh of the 1923 crew. This looks like a strong combination, and Callow of Washington will have his work cut out for him to bring out an eight that can defeat it.

Sixteen entries for the Milrose story of the best the country can do. And among these are the best of the big East-West race, with Driscoll, Dudley, Farley and Cable running for the East, and Fitch, Ascher, Wolters, and Dodge for the West. A half dozen 4-20 men will go after Joie Ray in the mile and a half, and all the sprinters will have a crack at Loren Murchison.

ABOUT ARRANGED CINCINNATI, O., Jan. 23.—The Cincinnati Boxing Commission has granted a permit for a boxing match between Young Stribling, Macon, Ga., Light Heavy-Weight, and Jack Schoendorf, Milwaukee, to be held here on February 11. This will be Stribling's first appearance in Cincinnati.

WEIGHT WILL HELP RED'S STAR HEAVY

CINCINNATI, Jan. 23.—Pete Donahue of the Cincinnati Reds is one of the game's greatest pitchers. His only failing is lack of strength. For Pete is a rather frail chap. He is constantly trying to remedy his one failing.

When Donahue reported to the Reds direct from a Texas College, the experts said he would never do, wasn't strong enough to stand the big league strain.

It didn't take Donahue long to prove that he was real pitcher, even if he wasn't an iron man physically. Realizing that Donahue would be of much more value to the Reds with 10 or 15 pounds added to his frame he is taking life easy on the coast at the expense of the Cincinnati club, so the story goes.

Manager Moran has received word from Donahue that the balmy climate of California and the life of a retired millionaire is putting on many extra pounds of weight, so much desired.

PRESIDENT CALLS CONFERENCE

(By the Associated Press) WASHINGTON, Jan. 23.—Call for a general conference on the northwestern agricultural situation to be held in Washington beginning next Wednesday will be called within the next 24 hours by President Coolidge.

FOR THE GAME'S SAKE

BY LAWRENCE PERRY

(Copyright, 1924, by The Bee.) NEW YORK, Jan. 23.—Despite reports from the middle West that opposition no less determined than last year will be raised against the proposed player-writer rule at the annual meeting of the United States Lawn Tennis Association, the writer believes that there will be more of a spirit of compromise on the part of the objectors than was the case in the 1923 meeting.

It will be recalled that last year the resolution was beaten because middle Western and California delegates threw their weight against it. Now, with reports that the Pacific Coast delegates have reversed their attitude, there seems not the slightest chance that the recommendation of the rules committee will go through if the matter is brought up.

But at the same time, the worst that could happen to the United States Lawn Tennis Association would be the entrance of a wedge threatening a split in ideas, methods and general procedure such as divides the United States Golf Association and the Western boys. As a consequence, if the middle Westerners should propose some changes in the recommendations, as for example a certain latitude in enforcing the rule in favoring such a player as Tilden who really can write—a great deal—take would be made in not giving the suggestion the most serious consideration.

With the middle Western delegates coming to the annual meeting of the national body unopposed there will be every opportunity for compromise on both sides. This is not, however, playing off compromise will mark the spirit of the meeting. The outlook is that the Eastern delegates of the United States Lawn Tennis Association will have sufficient back from other sections to put through anything they seriously want incorporated in the rules.

Some surprise has been manifested over the report that the British polo team, which will invade this country this summer in quest of the famous International Polo Trophy, will arrive here only a few weeks before the date set for the matches in September. The acclimation of the polo players has been the reason ascribed by those not familiar with facts. This is only partly the reason.

Chiefly, the rank condition of London polo fields militates against the playing of good polo. There are so few fields there and they are played upon so frequently that they become cut up, bumpy and this fact, hopeless so far as scientific polo is concerned. American fields are so much more accurate so much faster than when English play here they are almost completely at loss. Hence the idea of early arrival is to familiarize themselves with our fields.

NOW
12c

Just two things have made it possible for us to give you this 20% reduction on Tuxedo:

1. A reduction in the cost of Kentucky Burley tobacco and in package materials, as well.
2. The consolidation of three of our big plants into one. (Mr. Ford may not be in the tobacco business but he is right about consolidation.)

You know that it is the desire and policy of The American Tobacco Co. to extend to its customers the maximum of service.

Reducing the price of a great favorite like Tuxedo is our idea of delivering this service.

Tuxedo is always FRESH. Every package is—

Josephus Daniels Replies to Charge Rep.. Longworth

(By The Associated Press.)
RALEIGH, N. C., Jan. 28.—Declaring that during his term of office every means had been used to preserve the oil reserves of the Navy for the exclusive use of the Navy and that he had consistently refused to consider any proposition which would upset this policy, Josephus Daniels, former secretary of the Navy, tonight replied to the assertion made by Representative Longworth, Republican, in the House today in which he stated that the policy followed by Mr. Daniels had made possible the leasing of the oil reserves.

Mr. Daniels asserted "if Mr. Longworth will read the testimony and the record he will see that my uniform and militant position was to preserve the oil in the ground for the exclusive use of the Navy." He added that the "leasing by the present administration overturned the policy I maintained."

Following is the statement issued by Mr. Daniels tonight:

"I devoted much time during my term of office to procuring new naval oil reserves; in opposing the persistent attempts to obtain control of them by oil vandals; and refused every proposition to lease any of these reserves. If Mr. Longworth will read the testimony and the record he will see that my uniform and militant position was to preserve the oil in the ground for the exclusive use of the Navy; the leasing by present administration overturned the policy I maintained."

"The naval officer sent to California to examine the oil reserves reported that in one of them it would be wise, in order to preserve the oil for the Navy in the ground, to make an exchange of certain sections with the Southern Pacific for other sections. During the litigation over ownership of the reserves certain portions were operated by the receiver to prevent loss."

"Acting upon recommendation of officers in charge of oil reserves, Congress was asked to give the secretary of the Navy power to conserve the oil reserves of the Navy by lease, contract or otherwise and to use, store, exchange or sell the oil issuing therefrom. That provision was included because the Navy Department, after winning in the litigation over the California naval oil reserves, wished the power to exchange oil lands if it should develop that there was danger of seepage. The idea was that the Navy would have authority to trade lands that might lose oil content with owners of adjacent oil lands in order to secure the lands where the oil could be preserved in the ground. There were applications to lease. I declined to approve any exchange because no exchange proposition offered was for the benefit of the Navy. There was some seepage in naval reserve number two in California, but the extent has been exaggerated. The Navy's policy was to protect itself by digging offset wells rather than to exchange or lease."

"I declined every application to lease any naval oil reserve. The only sure place for a naval oil reserve is in the ground. The act to which Representative Longworth refers was passed on June 1, 1920, nine months before my term of office expired."

Auction Sale: I Will Sell At Auction
at the Ridge Street Bakery, Jan. 30, at 2:30 p. m., 1 soda fountain, 1 cash register, 2 show cases, tables, chairs, baking outfit, etc., taken as the property of Ridge Street Bakery to satisfy distress warrant in my hands. R. M. Foster, H. C. 25b5

Every official in the Navy Department and every oil operator, looking with greedy eyes upon exploitation of the naval oil reserves, knows my hostility toward any lease of these reserves set aside for the Navy. To a party who urged leasing because, they declared, owners of adjacent sections would dig wells under the naval reserves and take all the oil, my answer was: "If they attempt that seepage steal, the Navy will dig two such wells for every one they dig, and I added the United States is able to meet any attempt to sequester the naval oil reserves."

7 Circuit Judges Were Nominated

(By The Associated Press.)
RICHMOND, Va., Jan. 28.—The Joint Democratic caucus of the Virginia General Assembly tonight nominated without opposition seven circuit judges, the second auditor and the register of the land office for reelection. Bills now pending, calling for the reduction of judicial courts will have to be amended if they are passed as they were drawn to anticipate the nomination of judges whose terms expire January 31.

Nominees for second auditor and register of the land office, whose offices the Commission on Simplification and Economy recommended to be abolished, were Rosewell Page and John W. Richardson, respectively.

The judges were renominated by the caucus tonight.

Robert G. Southall, fourth circuit. John W. Fishburne, eighth circuit. Joseph W. Chinn Jr., twelfth circuit.

Samuel G. Brent, sixteenth circuit. H. B. Gregory, twentieth circuit. Edward T. Carter, twenty-fourth circuit.

P. H. Dillard, thirteenth circuit. Judge John J. Stuart, of Abing-

"THE STAR."
(Contributed)
Twinkle, twinkle little star,
Why should I know just who you are,
Why you're there and what you do,
And why so many come to you.

I've seen them leave your place
With a smile upon their face,
With their clothes so spic and span
Looking the part of a prosperous man.

Guide, guide me, little star,
To the place where real Launderers
are
And there let me forget the woes
Of soiled unkempt and dirty clothes.

They mend the rips, fix the tears,
Relieve folks of their Wash Day cares,
Do not fret, wall or moan,
Simply use the Telephone.

THE STAR LAUNDRY.

Increases Made In Earnings Big Industrial Co's.

(By The Associated Press.)
NEW YORK, Jan. 28.—Substantial increases in earnings in 1923 over 1922 were reported by a number of industrial companies including S. S. Kresge Company, Sears Roebuck and Company and Deere and Company.

Resumption of dividends by Montgomery Ward and Company, on the class A stock, which had been suspended since November 1920 and the decision of the Air Reduction Company to retire the remaining \$1,000,000 seven per cent. convertible notes outstanding as of April 1 also testified to the financial improvement of those companies.

Net earnings of S. S. Kresge for the end of December 31, 1923 totaled \$9,493,988 after charges and federal taxes, equivalent after preferred dividends to \$23.74 a share earned on \$33,889,100 combined class "B" and common stock, as compared with \$9,724,293, or \$24.38 a share on \$33,421,000 in 1922.

The balance sheet showed liberty bonds valued at \$3,369,888 and \$3,105,549 in cash as among the listed assets.

Net earnings of Sears Roebuck in 1923 totaled \$11,512,618, equivalent to \$10.95 a share on the common as compared with net earnings of \$5,435,168 in 1922, equivalent to \$4.88 a share.

Liggett and Myers Tobacco Company reported net income of \$9,622,397; after taxes and charges for 1923, equivalent after preferred dividends to \$23.74 a share earned on \$33,889,100 combined class "B" and common stock, as compared with \$9,724,293, or \$24.38 a share on \$33,421,000 in 1922.

TICKER TALK

Thomson & McKinnon

NEW YORK, Jan. 29.—U. S. Steel directors meet at 3 p. m. for dividend action. Fourth quarter earnings due.

British rail strike settled.

House Ways and Means Committee approved 25 per cent. reduction in tax on "earned incomes." Taxable incomes under \$5,000 defined as earned while \$20,000 is maximum on which reduction can be taken.

Standard Oil of Louisiana advanced gasoline two cents a gallon.

Agreement reached for merger on basis of four shares of Mutual Oil for one share of Continental Oil Company. Will be submitted to stockholders this week.

General Cigars for year ended December 31 net after taxes and \$2,383,285 against \$2,732,209 in 1922.

Standard Oil of New Jersey advanced all grades export gasoline one cent a gallon.

Chicago and Northwestern December net \$1,798,362 against \$1,165,161. Twelve months \$15,543,375 against \$17,036,205.

Pennsylvania Railroad December net \$3,724,233 against \$6,116,543. Twelve months \$83,356,849 against \$73,405,325.

Canadian Pacific December \$3,955,427 against \$2,454,895 in December 1922. Twelve months \$37,479,009 against \$36,301,591.

Net operating income of first 34 rails to report for December \$35,102,000 against \$42,468,000 for December 1922. Indicated annual net for 1923 of all class one roads \$9.12 per cent. on properly value.

Average price twenty industrials 27.25, off .55. Leading rails 82.15, off .25. Forty trading bonds 88.25, off .64.

Sinclair Denies He Made a Loan to Fall in Cable

(Associated Press Leased Wire)

PARIS, Jan. 29.—Harry F. Sinclair today denied Senator Lenroot's charge that he had made a loan to the Teapot Dome cable company.

He said that he had appeared before the investigating committee five different times and been discharged. He said he was not in Europe until his business trip had been completed.

Mr. Sinclair, in his message, says he welcomes the judicial determination of those questions in the lawfully constituted courts of our country and at the earliest date possible.

He said that he had appeared before the investigating committee five different times and been discharged. He said he was not in Europe until his business trip had been completed.

Mr. Sinclair, in his message, says he welcomes the judicial determination of those questions in the lawfully constituted courts of our country and at the earliest date possible.

NEW ORLEANS COTTON.

(Associated Press Leased Wire)

NEW ORLEANS, La., Jan. 29.—The settlement of the British rail strike was the main influence in the cotton market in the early trading today. While it was considered highly favorable, the news of it was received rather calmly. In the first half hour prices were advanced 18 to 25 points to \$3.40 for March and 21.57 for October. The demand for contracts appeared to be somewhat restricted by private reports of further recessions in prices of some lines of cotton goods in which have been reported.

Cotton futures opened steady:

March	33.34
May	32.94
July	32.17
October	27.33
December	26.93

THOSE TERRIBLE NEIGHBORS.

"How do you like your new neighbors?"

Not at all. The fellow on the left never took his sides and let us walk through the snow. And the one on the right clears his so neatly after every snowfall that my wife looks at me poisonously.—Life.

Radio Widow In Courts at Last

Now comes Mrs. Cora May White, the first "Radio Widow" to sue for "Radio Divorce."

She alleges her husband thinks more of his radio than of her, and says she is worse off than any golf widow.

MRS. CORA MAY WHITE

MINNEAPOLIS, Jan. 29.—Enters now the "radio widow."

And hers indeed is a sad plight—beside which static, short circuits and "cat howls" seem real pleasures.

That is if the allegations she sets forth in her divorce petition are true. The first plaintiff in such a suit, in so far as the records reveal, is a pretty young Minneapolis woman, Mrs. Cora May White.

Everything was well in the White household until hubby bought his radio. But after that, Gerald White paid far more attention to his receiving set than he did to her, his spouse charges.

Advocates Lighter and Larger Golf Ball as Standard

(Associated Press Leased Wire)

NEW YORK, Jan. 29.—A lighter and larger than the 1.62-1.62 one now standard would minimize "youth, strength and endurance" as essentials to golf and permit older players to share laurels with the younger, as they have been unable to do in six years. Secretary Lee of the U. S. Golf Association asserted today, in discussing the probability of a 1.55-1.56 ball by official adoption, the 1.55 ball that is 1.55 ounces avoirdupois and 1.56 inches in diameter, will be recommended to the executive committee of the association by the committee of experts, headed by Mr. Lee, which returned last night from Jekyll Island, Georgia, where they spent a week testing various types of balls to obtain data for the study of the association.

A lighter and larger ball will require smaller and less expensive courses and in the opinion of Mr. Lee, bring back to the game half-shots, wind batters, drifts and other shots that virtually passed out with the advent of the one-flying pellet, would act better on the putting green and enable the manufacturers to concentrate on durability rather than length. The lighter ball, Mr. Lee said, is more pronounced the penalty of a shot—driving into a stiff head wind with little effect either on the carry or run of heavy balls, but forced the lighter ones to drop almost perpetually and to remain where they struck.

Only 75 per cent. of the maximum distance of the present ball, Mr. Lee added, has been attained.

DAILY PUZZLE

Suppose you saw three dice stacked up as shown in the drawing. Could you tell the total number of dots on the hidden sides A, B, C, D and E?

A is the bottom of dice 1; B the top and C the bottom of dice 2; D the top and E the bottom of dice 3. Of course you can find the total by stacking three dice as shown above; the puzzle, however, is to find the simple rule that will tell you the total of those sides no matter how the dice are stacked.

Yesterday's answer—17

Add 3 to 17, (total 20); divide by 2 (10); add 8, (18); multiply by 2, (36); subtract 2, and you have 34 as the final result—and 34 is just two times 17.

NEW YORK COTTON.

(Associated Press Leased Wire)

NEW YORK, Jan. 29.—The cotton market opened first at an advance of 16 to 22 points today on the reported settlement of the British railroad strike and relatively firm Liverpool cables. May sold up 33.65 and July to 32.33 on covering. Liverpool and commission house buying, but at these figures met considerable realizing and Southern selling. Prices eased off in consequence with May selling back to 33.56 and July to 32.26, then steadied up again on a continuation of the early buying. Liverpool reported larger spot sales today and private cables said that Manchuria reports were better.

Cotton futures opened steady:

March	33.35
May	33.60
July	32.32
October	28.10
December	27.65

MORNING STOCK LETTER

Thomson & McKinnon

NEW YORK, Jan. 29.—The ease with which new issues are disposed of shows what a remarkable investment situation we have. A fifty million dollar bond issue was oversubscribed about four or five times. Oil is still advancing and the oil companies are on the road to prosperity. Steel business is getting better. General business is beginning to show signs of expansion though it is a little early in the year. Fundamentals remain bullish but the market is reactionary. At the close yesterday about fifty per cent. more stocks showed losses than gains. This is a temporary condition. I think there should be some more reaction and would be ready to buy again on a further setback if we get it.
